

Freedom of Information Request to MKC

A request was made to Milton Keynes Council on 13 October 2015 which was acknowledged on 28 October 2015 stating a reply will be within the statutory timescale of 20 working days.

9 November 2015 – MKC requested a further 5 working days to respond to 20 November 2015.

18 November 2015 – The following response was received:

Unfortunately I will not be able to provide the information requested in your enquiry. I am not sure where the figure of £70k came from, however am able to confirm that this figure is incorrect.

The current revenue (maintenance) budget for the entire housing stock is circa £10.6m per year. Currently MKC own 163 properties on 3 streets below, based on a £70k per year spend this would equate to an £11.4m spend on these properties alone, which would exceed the budget for the entire housing stock.

Hopefully the above satisfies your query, however if you require and further information please let me know.
