

Skips 2024-Timetable-CPM -07/24

Week-by-week Timetable

Week Number	Date	Estate/Street	Skip Details	Notes
	Thursday 4 th July			Can't do this date as Election Day.
Week 1	Thursday 11 th July*	Stantonbury Crosslands & Westhill	2=1+1 replacement	Possibility might be Finance Mtg on this day.
Week 2	Thursday 18 th July	Oakridge Park Winchcombe Meadows	1 and done	
Week 3	Thursday 25 th July	Bradville Woodstock Harrowden	1 and done. 2=1+1 replacement	
Week 4	Monday 29 th July	Bancroft Park Constantine Way	1 and done At Roman Park Residents Club	
Week 5	Monday 5 th August	Bancroft Hadrians Drive	2=1+1 replacement	
Week 6	Thursday 15 th August	Bradville Eston Court & Mercers Drive (at Com. Hub)	2=1+1 replacement 1=1 and done.	
Week 7	Thursday 5 th September	Stantonbury Walshs Manor	2=1+1 replacement	
Week 8	Thursday 12 th September	Stantonbury Jennings Stowe Court	2=1+1 Replacement 2=1+1 Replacement	
Week 9	Thursday 19 th September	Bradville Crispin	2=1+1 replacement	

Christmas Coach Trip Backing Paper – CPM 12.06.24.

Following on from the Community Projects meeting in February, please see price list below.

Cost per coach	A	B	C
Birmingham Christmas Market	£695.00	£795.00	No quote received
Waddesdon Manor*	£535.00	£635.00	No quote received
Mead Open Farm*	£495.00	£615.00	No quote received
London	£795.00	£790.00	No quote received
Plus, parking £25.00			
SPC to arrange parking			

Please note there is additional charge to *Waddesdon Manor and *Mead Open Farm, please be aware I cannot claim back the VAT.

*Waddesdon off peak House and Grounds adult price **£32.00**, visit must be Wednesday – Friday. <https://waddesdon.org.uk/>

*Waddesdon off peak Grounds adult price **£20.00**, visit must be Wednesday – Friday.

Things to note:

- Christmas Market/House/Light Trail (if there after dark), Max number of groups for the house is 50 anymore and would be split.
- Group tickets are discounted.
- Arrival advised at 2pm to enjoy market/house and light trail.
- No. of guests to be confirmed 4 weeks before visit. Invoice then raised to be paid in full 2 weeks before visit (split to full paying and National Trust Members).

*Mead Open Farm adult price **£30.00** <https://www.meadopenfarm.co.uk/>

Things to note:

- When tickets go on sale in the next couple of weeks, they will be 25% off the above price and slots sell fast.
Experience includes: -

Christmas Coach Trip Backing Paper – CPM 12.06.24.

- Meeting Father Christmas and picking a toy from his toy shop.
- Making a bear with the elves at the Make a Bear Workshop (Like build a bear)
- Decorating gingerbread with Mother Christmas.
- Visiting the immersive Christmas HQ and meeting all the Christmas friends.
- Making a bag of special reindeer food to leave out on Christmas Eve.
- Visiting the magical tree forest with special light glasses.
- A special Christmas shop.
- Visit the Alpine Village.
- On top of this the whole farm is included in the ticket!
- Softplay
- Meet and feed the animals.
- Take part in the animal activities.
- Mini golf
- Go karts.

Budget for Coach trips	£8,800.00
Stratford Upon Avon	£1,190.00
Summer Trip	£4,600.00
Remaining	£3,010.00

Schedule of work for Community payback

Week 1

Harrowden Bradville.

Clear turning point by Number 115

Clear alleyways by house numbers

107,99,85,67,51,39,27,15

Week 2

Harrowden Bradville

Clear alleyways by house numbers

12,56,64,76

Edge path from House number 85-115

Week 3

Van Der Bilt Court Bluebridge.

Edge and cut back all three pathways.

Cut back bushes around perimeter of circular pathway.

Week 4

Bancroft Park Play Park.

Cut back bushes on pathway and at entrance to park.

Edge all pathways.

Clear moss from pathway and sweep.

De-weed park area.

Redway off Spooney Wood.

Cut back bushes.

Edge pathway.

Clear moss from path and sweep

Week 5

Harrowden Bradville

Edge pathway from House number 84 -2

Edge pathway on Blandford Road

Edge pathway leading to Woodstock Court and clear car park.

Edge pathway leading to Minstrel Court and clear car park.

Week 6

Crispin Road Bradville

Clear alleyways by house numbers

126,112,102,88,74,38,26,14-12 (larger area)

Crispin Road

De-weed car park area by Wylie building.

Edge pathway both sides of road to Peper hill school.

Clear alleyways by house numbers

11,23,49,51, 71,87,99,111,123

Week 7, 8 & 9

Goring Stantonbury

Starting by 14 Goring Clear pathways trimming back any overhanging branches, edge all the way along to Stowe Court. This may continue into the next couple of weeks.

Week10

Kingsfold Bradville

Clear alleyways by house numbers.

124,112,100,90,88,82,70,68,58,46,34

Week11

Kingsfold Bradville

18-16 Kingsfold Play Park to be edged and cleared.

Ashwood

Edge pathway both sides of the road.

Week 12

Kingsfold Bradville.

Clear alleyways by house numbers

11,27,39,51,63,75,77,83-85 (large gap) 99, 111,123,135.

Week 1

Kingsfold Bradville

Clear pathway by house 84 Kingsfold leading to path by Naseby Court.

Milton Keynes

Street cleansing plan

**Keeping public land
free of waste, roads clear,
litter bins empty and public
property free of graffiti
and flyposting**

Introduction

Milton Keynes is renowned for its unique urban design, modern architecture and vibrant cultural scene. It has a grid-like road system incorporating both horizontal and vertical high-speed carriageways alongside an abundance of green space. A population of over 287,000 people residing across 129,000 households with tenure split across 60.8% of dwellings owner-occupied, 21% of homes privately rented and 18% that are socially rented. Due to the borough's fast-growing population, the City Council plans for a minimum of 26,500 dwellings across the borough over the period between 2016 and 2031, with development primarily focused on expansion areas and strategic land locations to the south and east of Milton Keynes.

In addition to its population growth, the city has ambitions to be the Greenest City in Europe by 2030. Having a well-maintained public realm and open space will be a fundamental component of this plan and SUEZ has developed a dynamic and focused street cleansing solution that aims to optimise the resources available to ensure the city's open spaces are attractive to all residents, visitors and investors alike.

Our plan is designed to overlay routine deployment for repetitive duties with focused targeted cleansing to tackle long standing areas suffering from high levels of litter or detritus degradation. Utilising 68 staff and 20 front-line vehicles, our plan is a mix of 5- and 7-day coverage deployed between the hours of 6am to 8pm. Our grid cleansing programme will be deployed during the spring / summer period each year, working alongside our grounds maintenance teams, and will operate from 8pm to 6am, taking advantage of road closures to maximise output in the safest manner possible. An out-of-hours team will also respond to emergency callouts.

Whilst this is our first formalised Street Cleansing Plan, we will continue to work closely with all stakeholders and undertake an annual review to ensure it meets our contractual obligations and the ongoing evolution of the City of Milton Keynes and the surrounding area.

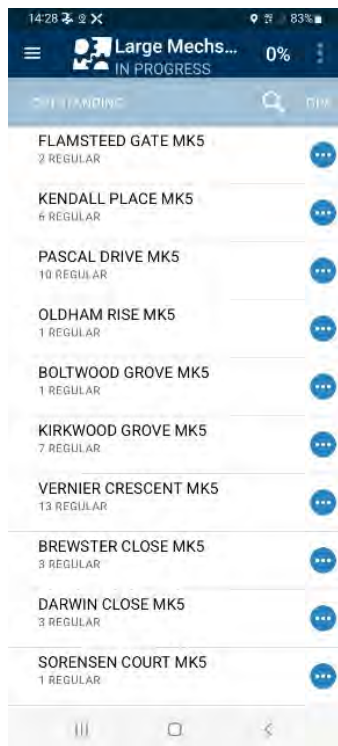

Using CORE

SUEZ will monitor cleansing services in real time via our CORE system, which will be implemented from the commencement of the Contract.

Crews will have the CORE in-cab device with their route information available. Barrow operatives will use mobile devices which operate CORE Lite, allowing them to communicate with supervisors and foremen, receive tasks and report issues, but without the full functionality of CORE.

Core PDA images

CORE features	Key benefits
Reporting in real time	<ul style="list-style-type: none"> → Real time location of crews viewable within the system. → Crews can report exceptions to service delivery using their device. <p>This includes reporting between services – e.g. a barrow operative can report fly-tipped waste, rectified by a Rapid Response team.</p>
Remote monitoring of cleansing operations	<ul style="list-style-type: none"> → Progress reports are provided using the system. <p>These show the progress of each schedule throughout the day.</p>
Allocation of jobs and tracking through to completion	<ul style="list-style-type: none"> → Where individual tasks have been issued, the completion status can be viewed through the system. → Includes photographic evidence where relevant – e.g. a damaged litter bin.

Our aim

For the city and residents of Milton Keynes, SUEZ aims to:

→ **Keep public land free of illegally deposited waste**

We will remove fly-tipped waste on public land within five working days of it being reported. We do not provide a free service for fly-tips on private property.

→ **Keep the roads clear of dangerous wet leaves and blossom, recycling as much biodegradable matter as possible**

We provide a service that is appropriate to a particular road and a leafing programme for designated roads. We will not clear leaves from private land. Please note that there is no statutory duty for local authorities to remove leaves.

→ **Keep roads clear of large accumulations of weed growth**

There is no statutory duty to remove weed growth, but we understand it can look unsightly and lead to higher highway maintenance costs. We remove weed growth from hard surfaces through our Annual Weed Treatment and Vegetation Control Plan which runs from mid-March to mid-November (subject to optimal working conditions to treat the weeds) we therefore do not typically respond to requests for the removal of small accumulations of weeds outside this programmed activity.

Note

All dog waste bins are provided by Parish Councils and have their own management arrangements. Contact the relevant Parish or Town Council if there is an issue with these bins.

→ **Empty litter bins at a frequency that prevents them overflowing**

This is normally at the same time as we undertake the street cleaning. We respond to reports of overflowing bins within two working days and regularly review the location of litter bins. We will adjust frequencies where needed.

→ **Attend road traffic accidents, as required, respond to reports of dead animals and respond to reports of drug paraphernalia**

We aim to undertake the careful removal of identified items within four hours of notification. We will not undertake the removal of dead pet animals from private property.

→ **Keep public property free of graffiti and flyposting by removing or painting it out and to assist owners of private property**

We provide a free removal service to private residential properties on schedule by return of our disclaimer. Offensive graffiti or fly posting will be removed as soon as reasonably practicable. We do not undertake routine removal or painting out of graffiti or flyposting above three metres or where there are health and safety issues for our operatives. We do not undertake free graffiti removal from commercial properties or infrastructure.

Meet the team

The team here at Milton Keynes has a wide and varied range of street cleansing experience – from new SUEZ employees with a few months' experience to veterans of 32 years' service. We are extremely proud of our diverse and inclusive team.

Specialist training that exists within our team includes IOSH (Institution of Occupational Safety and Health), Chapter 8 Traffic Management, Asbestos Awareness and First Aid.

Zone explanation

Zone		Minimum cleansing frequency** (regardless of cleanliness standard)
1+	Central Milton Keynes	Three (3) times per week
1	All other town centres, shopping centres, areas where people congregate	Weekly
2	Streets that have high footfall, high density housing, other shopping areas, and/or and educational establishments on them	Every four (4) weeks – except parks, recreation and sports ground, which shall be weekly (April to September)
3a	Everyday areas including most low and medium density areas	Every eight (8) weeks
3b	Rural roads	Every sixteen (16) weeks
4	Areas with special circumstances	Annual: Central reservation and lane 2 Quarterly: Nearside and lane 1 Monthly: Laybys and slip roads
	Parks, recreation and sports ground (applies to litter only)	4 weekly – except April to September which is weekly

** The minimum frequencies should not be considered an absolute frequency of cleansing to maintain the standards stated within the Contract Specification. SUEZ shall undertake cleansing operations to ensure compliance with the Contract Cleansing Standards. These will be subject to annual review, as required.

Emergency	1	1	1
Housing land	1	1	1
Total resources	36	29	34

Street grading

All residential roads are cleaned as appropriate on a regular basis. During the year we will conduct approximately 1,000 surveys in total (c. 80 each month) to assess and grade the cleansing standards over an area.

We aim to inspect areas that are reported as littered within 24 hours.

We do not undertake additional cleaning at grade A or B – this litter will be removed at the next scheduled clean of the area.

Grade C areas will only be cleaned if they are less than halfway through the cleaning cycle. If not, they will be cleaned on schedule with particular attention paid to any issues raised.

Areas that are assessed as Grade D will be cleaned within 24 hours.

The grading schedule is pre-set by Milton Keynes City Council’s waste team. SUEZ does not align its cleansing schedule to match. This allows a true reflection of the boroughs’ cleanliness.

Count of street grade (post contract start)

	A	B	C	D	Total
October	22	66	6	0	94
November	2	64	2	0	68
December	4	65	6	0	75
January	6	77	10	0	93
February	3	72	5	0	80
March	0	6	0	0	6
Total	37	350	29	0	416

Street grades

Grade A

The local environment is completely free of litter, weeds, detritus, fly tip, graffiti and fly posting.

Grade B

There is the occasional piece of litter or a light scattering of debris* on the footpath or in the road gully. Typically, this would be a single piece of litter no larger than a drinks can or a crisp packet every metre.

Grade C

The litter is widespread or there are lots of small piles of debris* on the footpath or in the road gully. This could be individual items of larger litter, such as a newspaper, or small groups of small litter, such as crisp packets or drinks cans, in the space of a metre.

Grade D

There is heavy littering or large piles of debris* on the footpath or in the road gully.

* Debris comprises of soil, leaves (in small quantities), dead plants and small stones.

Barrow beat

Barrow

01	Stony Stratford
02	Olney
03	CMK Train Station
04	CMK Civic Offices
05	CMK Bus Lanes
06	CMK Escape
07	CMK Block Works

Operating hours

Monday – Friday

06:00 – 18:00

Saturday

07:00 – 18:00

Sunday

07:00 – 17:00

Team

Barrow operatives will be continuously present in Milton Keynes City, as well as in Olney and Stony Stratford. Operatives will be taken to their first task location by a crew at the start of their shift. They will empty all the bins and wipe them clean, litter pick, sweep the pavement, remove weeds manually, clean bird droppings from benches, etc. Each full bag of litter and detritus collected will be securely closed (so the waste can't escape) and stored in agreed locations of the City/Town centre to be collected by a local crew.

When litter picking, the operatives will ensure that recyclables are segregated in the 'recycling' compartment of their barrow, separate from other litter and detritus from the sweepings. Barrows will be stored at an agreed location with the Authorised Officer or taken back to the depot. Operatives will be picked up by a local crew at the end of their shift to return to the depot.

Operatives will have a two-compartment barrow with storage for their equipment .

Equipment

Barrows are equipped with the following:

- 24" bass pavement broom
- 12" bass channel broom
- Swish kerbside broom
- Sharps container
- Litter pickers
- General waste sacks
- Graffiti removal wipes
- CORE device
- Hoes for weeding
- Lightweight shovels

Secondary retails

We have identified and created a schedule of works to help target high foot fall areas, commonly known as secondary retails.

The schedules will be between one and seven days per week.

Shop crews

3 x 4.2 tonne electric cage vehicle

Team

3 x driver
3 x operative

Operating hours

Monday – Friday
07:00 – 16:00

Saturday – Sunday
07:00 – 13:00

Location

There are currently 57 estates across Milton Keynes where we cleanse and maintain the shop area. Secondary retail consist of high streets, estate shops and areas of high footfall with litter bins.

Key responsibilities

- Cleansing, footway or footpath
- Regular emptying, cleansing of litter bins
- Removing moss and weeds up to the backline of pavements, to ensure that such land is predominantly free of weeds
- Removing seasonal fall
- Reporting of damaged footpaths, stairs, broken bins etc.

Equipment

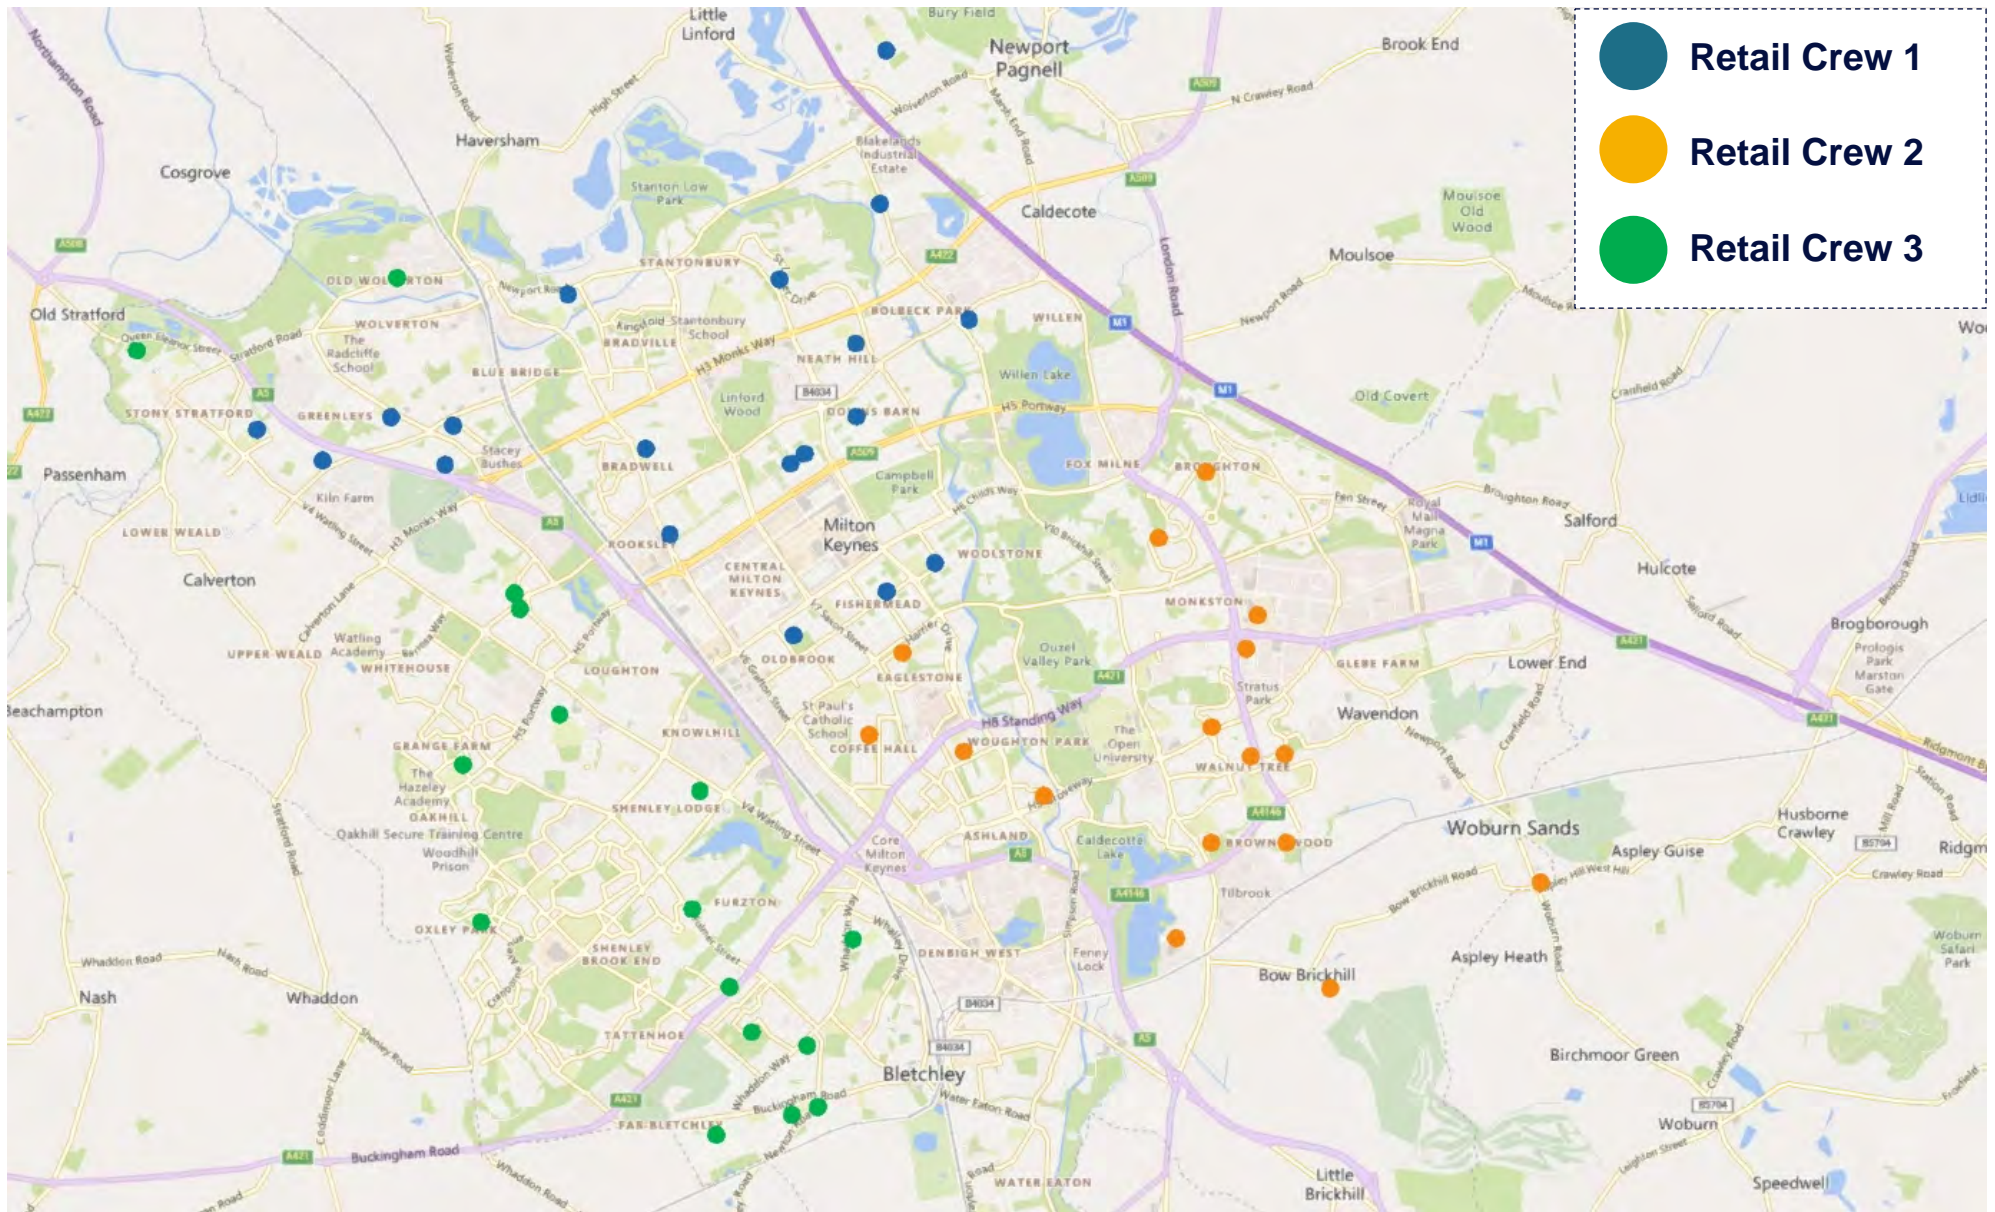

4.2 tonne electric cage vehicle equipped with the following:

- 24" bass pavement broom
- 12" bass channel broom
- Swish kerbside broom
- Sharps container
- Litter pickers
- General waste sacks
- Graffiti removal wipes
- CORE device
- Hoes for weeding
- Lightweight shovels
- Electric blower

Secondary retails – bin locations

Smart bins (big belly bins)

Team

1 x driver, 1 x operative

The Big Belly Bin crew has access to an app that notifies them when a bin hits 80% fill level.

A fully enclosed bin means no visible waste and no windblown litter, eliminating a food source for pests and keeping your space safer.

Equipment

4.2 tonne electric caged tipper equipped with the following:

- ➔ 24" bass pavement broom
- ➔ 12" bass channel broom
- ➔ Swish kerbside broom
- ➔ Sharps container
- ➔ Litter pickers
- ➔ General waste sacks
- ➔ Graffiti removal wipes
- ➔ CORE device

Operating hours

Monday – Friday

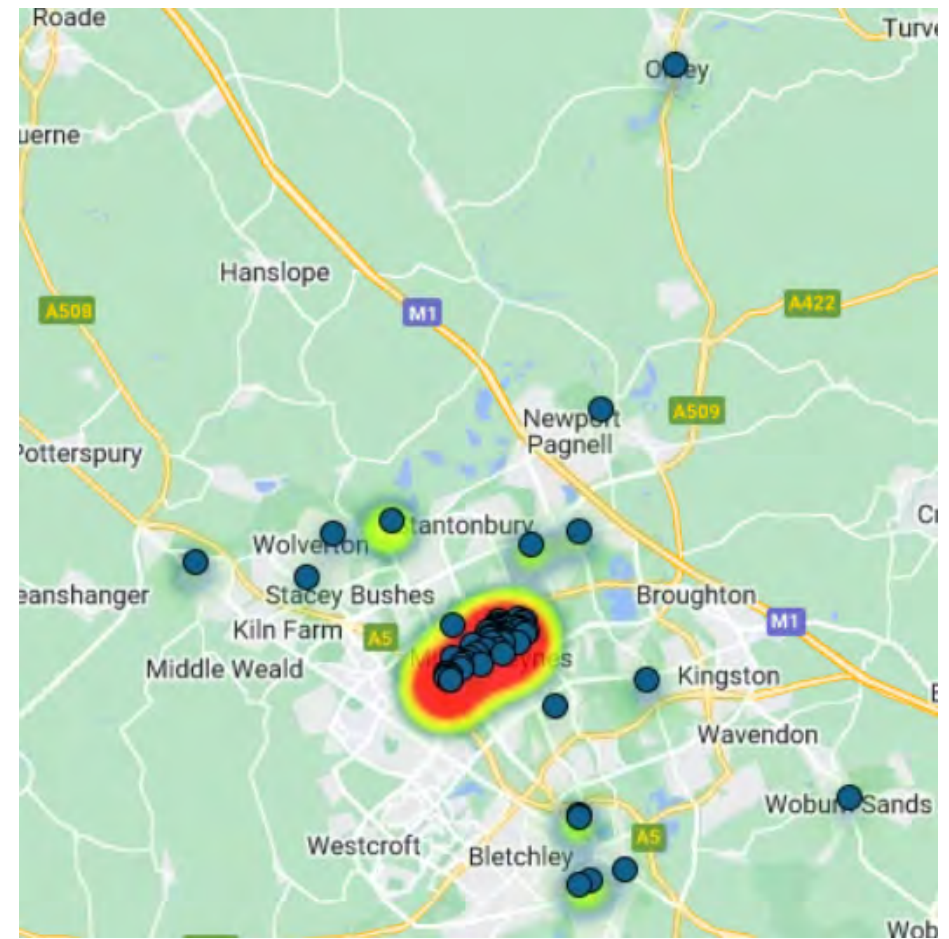

07:00 – 16:00

Saturday – Sunday

07:00 – 15:00

Location

There are currently 63 smart bins located across Milton Keynes, the majority being in and around central Milton Keynes itself.

Heat map of Smart bin collection frequencies

Collection efficiency (November 2022 – March 2024)

Collection reasons (November 2022 – March 2024)

8,153

Certain locations in Milton Keynes have pairs of big belly bins. For efficiency, both bins are emptied irrespective of the fill level of the second bin. As potentially below 80%, this would register as "not ready".

Residential teams

Residential teams will be working through the borough from east to west, split between northern and southern teams. Schedule of works has been given to Milton Keynes City Council and the cleansing frequency can be found in detail at:

<https://mapping.milton-keynes.gov.uk/mymiltonkeynes.aspx>

Teams x 5

1 x driver, 2 x operatives

Operating hours

Monday – Friday
07:00 – 16:00

Equipment

4.2 tonne electric cage vehicle equipped with the following:

- 24" bass pavement broom
- 12" bass channel broom
- Swish kerbside broom
- Sharps container
- Litter pickers
- General waste sacks
- Graffiti removal wipes
- CORE device
- Hoes for weeding
- Lightweight shovels
- Electric blower

Key responsibilities

Residential teams are the heart and soul of the community, often clearing dumped rubbish before it has been reported.

Key responsibilities include:

- Cleansing footway or footpath
- Regular emptying, cleansing of litter bins
- Removing fly-tipping encountered if easy to remove (or report to be removed by the Rapid Response teams)
- Removing graffiti, flyposting and illegal signs if easy to remove (or report to be removed by the panel van fitted with wash or Rapid Response teams)
- Removing seasonal fall (assisted during a set period of the year by the additional resource)
- Removing moss and weeds up to the backline of pavements, to ensure that such land is predominantly free of weeds
- Removing shopping trolleys and similar items if possible (or report to be removed by the Rapid Response teams)
- Removing and disposing of drug related items or as directed by the Authorised Officer
- Removing any animal/dog fouling and human excrement
- The cleansing of street name plates and low-level traffic signs if accessible
- Transporting all arisings as a result of the Services to the designated Reception Point
- Keeping gully grids clear of silt and detritus
- Supporting local community 'clean-up' events
- Photographing evidence and reporting any issues on their CORE device, such as fly-tipped items, graffiti and flyposting, damaged bins and street furniture

Residential team frequencies

The city of Milton Keynes has been broken down into different cleansing frequencies depending on the volume of works required and the resource needed. The complete breakdown of frequencies is set out in the schedule overview starting on page 26.

		Day				
		Monday	Tuesday	Wednesday	Thursday	Friday
Team	1	Newport Pagnell North	Newport Pagnell South	Willen	Giffard Park	Greenleys
	2	Oakridge Park Redhouse Park	Blakelands Tongwell	Northfield Fix Milne	Willen Park	Conniburrow + Bradwell Common
	3	Brooklands	Brooklands	Springfield	Glebe Farm	A5 laybys north A5 laybys south
	4	Magan Park Moulsoe	Broughton	Broughton Atterbury	Lakes	Fishermead
	5	Kingston	Broughton Gate	Eaglestone + Eaglestone West	Lakes	Oldbrook

Key
Weekly
Two weekly
Four weekly
Eight weekly

Residential teams 1 – 5: weekly overview.

Rapid response

Rapid

01	North
02	Central
03	South

Operating hours

Monday – Friday
07:00 – 16:00

Equipment

7.5 tonne caged tipper lorry with tail lift

Teams x 3

1 x driver, 1 x operative

Key responsibilities

Rapid Response teams will carry-out ad-hoc tasks, such as removing fly-tipped waste, dead animals etc., across the whole authority area as scheduled on the CORE in-cab system and requested by the Authorised Officer (following reports or requests from residents).

Teams will also cleanse and make an area safe after incidents such as spillages. They may also undertake the removal and clearance of encampments.

We aim to keep public land free of illegally deposited waste. We will remove fly-tipped waste on public land within five working days of it being reported. We do not provide a free service for fly-tips on private property.

After a report is raised through Milton Keynes City Council an event will be automatically created and sent to SUEZ through CORE.

CORE will make an event with the correct due date for collection.

Work is allocated daily to ensure all events are being completed in the agreed timeframe.

Reports can be raised online at
https://tiny.cc/dumped_rubbish

Mechanical sweeper

Five large mechanical sweepers and four small compact sweepers will follow the residential teams schedule. Large mechanical sweepers will be sweeping the channels of the road to remove detritus and keep drainage free and clear. Small mechanical sweepers will be cleansing redways and the footpaths of high foot fall areas.

Large mechanical

5 x large mech sweepers

Team

1 x driver

Operating hours

Monday – Friday
06:45 – 16:45

Large mechanical

Small mechanical

4 x small mech sweepers

Team

1 x driver

Operating hours

Monday – Friday
07:00 – 16:00

Saturday - Sunday
07:00 – 13:00

Small mechanical

Approximate statistics to date

(September 2023 – March 2024)

	Distance (km)	Weight (kg)
Small sweeper	17,395	29,920
Large sweeper	32,418	502,734

Parks and play areas

There are currently 369 parks and play areas across 88 estates in Milton Keynes.

We have split Milton Keynes in half with one crew working in the north and one crew working in the south.

These parks and play areas vary in size and usage across the borough, so we have created a rolling schedule broken down by the following scale of site usage: very high, high, medium, low, very low.

Park teams will be responsible for the cleansing of playgrounds across Milton Keynes, as well as emptying bins. They will work closely with Glendale's Park maintenance team, helping identify broken equipment and reporting on graffiti to SUEZ.

Teams x 2

North

1 x driver, 1 x operative

South

1 x driver, 1 x operative

Operating hours

Monday – Friday

07:00 – 16:00

Equipment

4.2 tonne electric cage vehicle equipped with the following:

- ➔ 24" bass pavement broom
- ➔ 12" bass channel broom
- ➔ Swish kerbside broom
- ➔ Sharps container
- ➔ Litter pickers
- ➔ General waste sacks
- ➔ Graffiti removal wipes
- ➔ CORE device
- ➔ Hoes for weeding
- ➔ Lightweight shovels
- ➔ Electric blower

Housing land

This is a specialist team that is assigned to work in partnership with Milton Keynes City Council's housing department.

There are three supervisors from the housing department instructing the housing team on what needs to be completed on a daily basis.

Team

1 x driver, 1 x operative

The team will assist caretakers to remove bulky items and help clean housing areas.

Operating hours

Monday – Friday
07:00 – 16:00

Equipment

7.5 tonne caged tipper lorry with tail lift

- ➔ West Bletchley

Examples of wastes removed

Graffiti removal and flyposting

Panel vans fitted with a pressure washer are to undertake hot washing.

Tasks are scheduled on the CORE in-cab system after been requested by the Authorised Officer (following reports or requests from residents).

There is a second vehicle to undertake ad-hoc tasks, such as litter bin and street washing. This vehicle can also support with graffiti removal when required.

Team

1 x driver, 1 x operative

plus 1 x driver, 1 x operative when required

The team will remove graffiti and flyposting and provide deep cleansing.

Operating hours

Monday – Friday
07:00 – 16:00

Equipment

1 x panel van
1 x support vehicle

Response times

Item	Response time
Offensive graffiti or flyposting	Twenty-four (24) hours
Non-offensive graffiti or flyposting in: Zone 1 + central Milton Keynes	From Grade C or below – three (3) working days

Grid road plan

Team

1 x team leader
6 x driver
6 x operative

Operating hours

Monday – Thursday
20:00 – 06:00

SUEZ have been working closely with Milton Keynes City Council and our sub-contractor Glendale to take everything learned from the grid road trial that took place from 11 September to 31 October 2023 and into the new schedules and traffic management.

There will be three separate schedules to cut and cleanse the grid roads, due to the different levels of complexity and permitting requirements for different grid sections.

As of 02 April 2024, the main schedules to cut and cleanse the grid road system will commence. As part of these works, the grid road corridors will be closed off to the traffic and cut, swept and litter picked overnight between the hours of 20:00 and 06:00. Work will be undertaken Monday through to Thursday, inclusive, with the crew then having a three-day weekend. The main schedules are currently to be completed over 23 nights. It is expected the main schedule will be undertaken three or four times per annum. This will be between the months of April and October, aligned to the grass cutting season.

Currently schedules are being put together for more complex or 'difficult' grid sections. This works schedule is made up of grid sections that are unable to be closed with the basic traffic management used on the trial.

Additionally, these schedules will include grid sections that were unable to be closed due to requiring additional permits from National Highways.

Once these schedules are complete, the frequency they will be undertaken will be agreed with the client.

The final scheduling involves the roundabouts on the grid roads. It is currently being investigated as to whether SUEZ and Glendale can work alongside roundabout closures undertaken by the Highways Department.

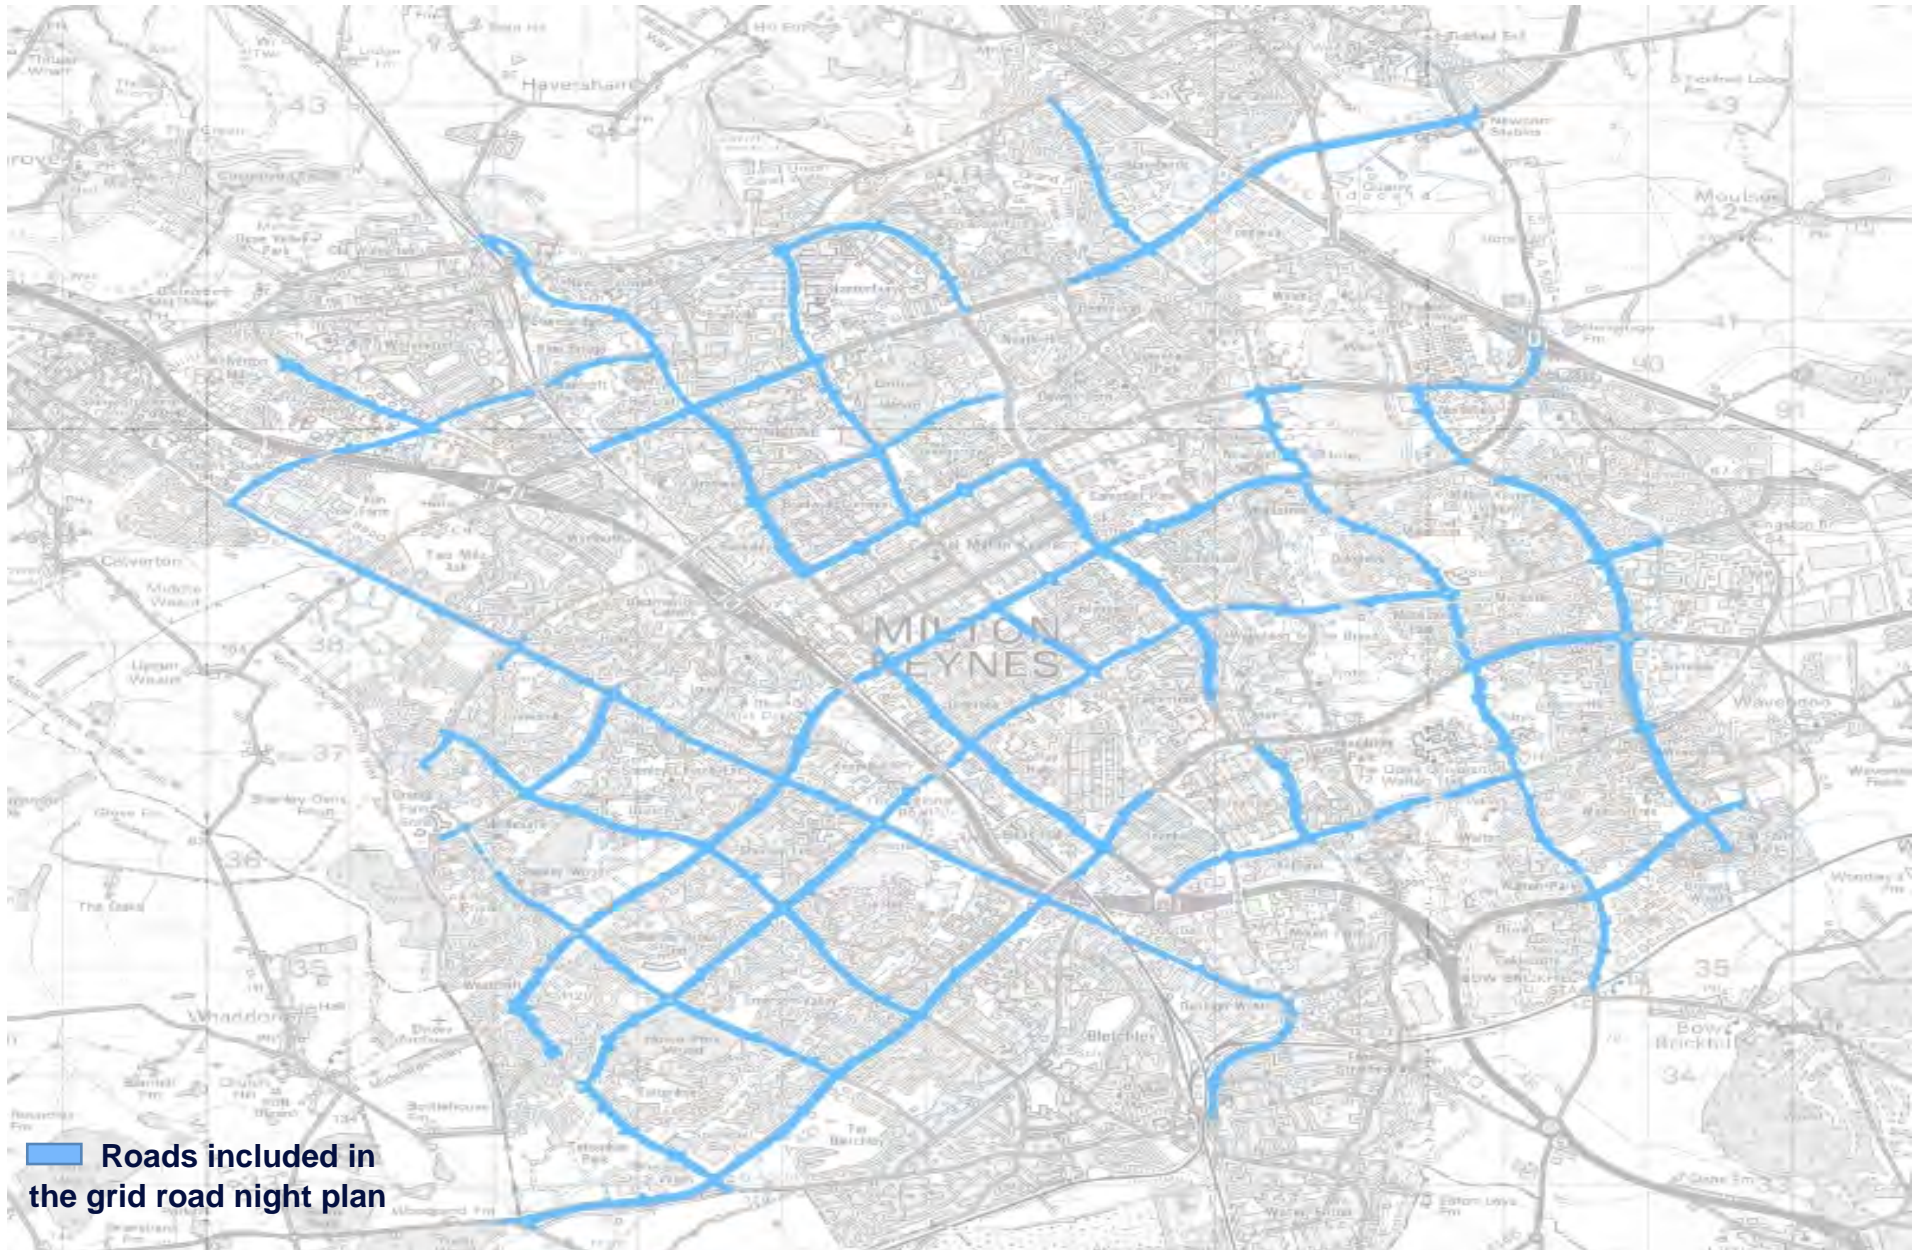

Total area (m2) cleansed and cut per cycle: 1.17million m2

SUEZ and Glendale Night Team removing litter, cutting grass, digging out detritus and mechanically sweeping

Grid road night plan

Weed removal

The weed control team will assist the block crews in removing heavy weeds and detritus.

The team will target ticketed works coming in that need attention.

Team

1 x driver, 1 x operative

Operating hours

Monday – Friday
07:00 – 16:00

Equipment

Luton box van

Key responsibilities

- ➔ Leaf fall clearance
- ➔ Special events
- ➔ One-off cleansing
- ➔ Memorial cleaning
- ➔ High-pressure washing
- ➔ Parks trust support
- ➔ Community litter picking spoil collection
- ➔ Gritting / path clearing

Areas with special circumstances cleaning programme

Areas with special circumstances (ASC) are defined within the government Code of Practice on Litter and Refuse as types of land where issues of health and safety and reasonableness and practicability are dominant considerations when undertaking environmental maintenance work. For the purpose of cleaning in Milton Keynes, this includes high speed roads (50mph) or part thereof which are not grid roads (e.g. A5, A422, A509, A428, A421, A4146 and certain B roads).

The cleansing frequency for areas of special circumstances are annual for the central reservation and lane 2, quarterly for the nearside and lane 1, and monthly for layby and slips roads subject to the availability. Due to the high speed nature of these roads and the risk to life and property, they are required to be cleaned in accordance with '*Traffic Signs Manual: Chapter 8 - Traffic Safety Measures and Signs for Road Works and Temporary Situations*', '*Safety at Street Works and Road Works: A Code of Practice*' and '*Waste Industry Safety and Health 24 Safe Cleaning on the Highway and Managing the Risks Associated with Manual and Mechanical Cleansing*'.

Cleaning (litter picking and mechanical sweeping) these areas requires traffic management in the form of road closures, lane closures, temporary traffic restrictions and/or rolling roadblocks – all of which require careful planning, highways permits and considerable costs. The Code of Practice on Litter and Refuse recognises this additional cost and effort and correspondingly suggest a lower frequency of cleaning and response times than would otherwise be recommended for non-high-speed areas.

Highways permit and appropriate safety measures require additional planning and agreement from the local (and sometimes national) highways authority and third-party traffic management suppliers.

A high-level schedule can be proposed which may be impacted by unforeseen events – e.g. non-routine maintenance, accidents, weather conditions, cumulative disruptive effects of other planned and non-planned closures and other priorities which would prevent the highway from being closed.

An updated Milton Keynes Street Cleansing Plan will include the '*Areas with special circumstances cleaning programme*'.

Community Speedwatch Update.

- Administrator training completed by both K. Fane and D. Outram.
- The following 12 sites have been registered and approved as 'active' ones for our Parish:

Street	Estate	Location Number	Direction Heading
Hadrians Drive	Bancroft	3	North-East
Hadrians Drive	Bancroft	2	South-West
Abbey Way	Bradville	-	West only
Abbey Way	Bradville	-	East
Mercers Drive	Bradville	1	South
Mercers Drive	Bradville	2	South
Selkirk Drive	Stantonbury	1	North-East
Selkirk Drive	Oakridge Park	2	South-West
Redbridge	Stantonbury	1	North-West
Redbridge	Stantonbury	2	North-West
Ashfield	Stantonbury	1	North-East
Ashfield	Stantonbury	2	North-West

- Equipment charged and checked.
- Calibration requirement checked with Speedwatch Co-Ordinator. No requirement to be calibrated for Speedwatch.
- PCSO to be invited once date confirmed by committee.
- Community Speedwatch Co-ordinator also to be notified of date.

All the office now require is more volunteers and agreement on dates.
